

# You're All I Need

Sarah Vaughan

I used to dream of gold and glory  
Just like a lot of people do  
But since you taught me love's old story  
I only dream of you

You're All I Need my wonderful one  
You're All I Need my starlight and sun  
A friend to walk beside me  
A loving hand to guide me  
A tender evening song when day is done

You're All I Need for you're heaven sent  
You're All I Need to bring me contentment  
The world is mine for you are mine  
I'm rich indeed  
You're All I Need
