

You're All I Need

Sarah Vaughan

I used to dream of gold and glory
Just like a lot of people do
But since you taught me love's old story
I only dream of you

You're All I Need my wonderful one
You're All I Need my starlight and sun
A friend to walk beside me
A loving hand to guide me
A tender evening song when day is done

You're All I Need for you're heaven sent
You're All I Need to bring me contentment
The world is mine for you are mine
I'm rich indeed
You're All I Need
