You're All I Need

Sarah Vaughan

I used to dream of gold and glory
Just like a lot of people do
But since you taught me love's old story
I only dream of you

You're All I Need my wonderful one You're All I Need my starlight and sun A friend to walk beside me A loving hand to guide me A tender evening song when day is done

You're All I Need for you're heaven sent You're All I Need to bring me contentment The world is mine for you are mine I'm rich indeed You're All I Need
