

Deep Down

Sarah

Never mind what you hear
My heart is beating just for you
So let the stories be told
And let me whisper in your ear
You never need to be afraid my love
There is no me without us
Deep down in my heart I
Feel whole in your eyes
And through them I see the truth
Deep down in my heart I
Wish you love for life and
I wanna spend mine with you
If I write a book on love
Every word will be your name

Oh and when we're alone
It just gets better every day
I never need to be afraid my love
With you I always feel safe as one
Deep down in my heart I
Feel whole in your eyes
And through them I see the truth
Deep down in my heart I
Wish you love for life and
I wanna spend mine with you
Just want to wrap my soul
Around your world
And make you smile when all else fails
And when it's hard to believe in this life
Baby dream your dreams and trust in me
You never need to be afraid my love
There is no me without us
