True Love Is Tough

You've got no You've got no chance to prove it all I've got no I've got no chance to give it all Chance to give it all True love is tough Cause I can't get enough And it drives me wild sometimes True love is tough Cause when I have enough It makes me blind all the time You wonder You wonder You wonder why it's been so hard I guess I need some time to learn Need some time to learn

True love is tough Cause I can't get enough And it drives me wild sometimes True love is tough Cause when I have enough It makes me blind all the time I wanna give it some time But now it hurts And if I give you a sign Would you still be there for me Still be there for me True love is tough Cause I can't get enough And it drives me wild sometimes True love is tough Cause when I have enough It makes me blind all the time
