

## Anal Vomit

Sarcófago

One more time  
We meet ourselves here  
I got something to say  
You got so much to listen  
There's almost ten years  
Some things had changed  
But a lot stays the same  
We got the same hate  
Why should we conceal  
Or feign that everything is fine  
Money can hide but it's not  
The cure for disease  
That causes pain to everyone  
(life) cruel heritage  
Eternal delight  
Game of the wise

You need to scream with me  
Putting out all your uprising  
Free yourselves from conformity  
Expel your anal vomit
