

Pact Of Cum

Sarcófago

Beat me, whip me, suck me
Seal the pact of cum
When she starts to suck
I feel my bloody boiling
Her tongue in constant moving
My pistol intensely pumping

Your piss in my throat, my jysm in your mouth
We had sealed the pact of cum
United souls in depravation and lust
We had sealed the pact of cum
She's my best dream, the worst nightmare
I love so when she hurts me with that bloody lash
No law inside these walls
Nobody will stop us tonight
Racking you with the delights of the flesh
Can you feel our souls in desire?
Damned bitch, savage goddess
Bless me with your angry
Ride me 'til death
Bathing in my jysm
Barking with pleasure
My dick in her ass
Convultions among excrements
