

## Pact Of Cum

Sarcófago

Beat me, whip me, suck me  
Seal the pact of cum  
When she starts to suck  
I feel my bloody boiling  
Her tongue in constant moving  
My pistol intensely pumping

Your piss in my throat, my jysm in your mouth  
We had sealed the pact of cum  
United souls in depravation and lust  
We had sealed the pact of cum  
She's my best dream, the worst nightmare  
I love so when she hurts me with that bloody lash  
No law inside these walls  
Nobody will stop us tonight  
Racking you with the delights of the flesh  
Can you feel our souls in desire?  
Damned bitch, savage goddess  
Bless me with your angry  
Ride me 'til death  
Bathing in my jysm  
Barking with pleasure  
My dick in her ass  
Convultions among excrements
