Beat me, whip me, suck me
Seal the pact of cum
When she starts to suck
I feel my bloody boiling
Her tongue in constant moving
My pistol intensely pumping

Your piss in my throat, my jysm in your mouth We had sealed the pact of cum United souls in depravation and lust We had sealed the pact of cum She's my best dream, the worst nightmare I love so when she hurts me with that bloody lash No law inside these walls Nobody will stop us tonight Racking you with the delights of the flesh Can you feel our souls in desire? Damned bitch, savage goddess Bless me with your angry Ride me 'til death Bathing in my jysm Barking with pleasure My dick in her ass Convultions among excrements
