

Satanic Lust

Sarcófago

the night is cold
and the sky is without light
only a darkned moon
will be the witness in this night

first hymnes are heard
the invocation starts
with love they call
lord's presence is the harvest

the sacrifice is done
a innocent virgin is dead
bodies start to fuck
total orgasm is consumed

the dead virgin
now is fucked
sodomy in this night
necromancy is complete

pleasure and delight
satanic lust
