

# Chemical Reaction

Sasha

Serious emergency  
Someone come and rescue me  
Help me make it through the night

All my wantings got to stop  
I need some love to fill me up  
Come in close and hold me tight

Ooh'we  
A chemical reaction  
Ooh'we  
A fatal attraction  
Ooh'we  
I've gotta get some action  
NOW!

This has gone on far too long  
I feel a change is coming on  
That's gonna make me feel alright

Please release me from this state  
Don't delay, don't hesitate  
I feel a rising up inside

Physical equality  
Is chemical reality  
It's what I need to set me free

When it comes to push and shove  
I need some help from up above  
I gotta find this thing called love

Ragga
