Serious emergency Someone come and rescue me Help me make it through the night

All my wantings got to stop I need some love to fill me up Come in close and hold me tight

Ooh'we
A chemical reaction
Ooh'we
A fatal attraction
Ooh'we
I've gotta get some action
NOW!

This has gone on far too long
I feel a change is coming on
That's gonna make me feel alright

Please release me from this state Don't delay, don't hesitate I feel a rising up inside

Physical equality
Is chemical reality
It's what I need to set me free

When it comes to push and shove I need some help from up above I gotta find this thing called love

Ragga
