

Do It To Me

Sasha

Turn around - could you be
The one and only love for me?
Don't be cruel - cold as ice
Every word is true, I tell no lies

Oh everybody is looking at you
Here I am got something special for you
Don't you wait for a sign from above
So come on baby let me show you love

Do it to me (4x)
Can't you see - you're the one
And you know our time has just begun
Take my world on a bed
I'm a kind of god who patience dead

Oh yeah and you're away afraid of falling in love
What you need I got it for you and its more than enough
This is your chance , so take it right away
You better listen what I got to say

Do it to me (4x)
Everybody is looking at you
Here I am got something special for you
Don't you wait for a sign from above
So come on baby let me show you love

Do it to me. (9x)
