

Drive My Car

Sasha

Twincam, Turbocharge, Fuel injection
Drive shaft, Jet black, wider wheels
alloy caps, front grills, automatic,
car fanatic
raving up from under me

Four speaker bass bins, wheel spins,
stereo, fog lights, accelerate,
motorway, cruise control, low suspension,
hypertension,
pumping up inside of me

I wanna drive my car
with no speed-limit
wanna drive it fast
foot down on the gas
and the wheels turn round and round
(nothing's gonna get me down) or (I ain't gonna hang around)

Foot down on the floor
roof back,
slam the doors,
get inside, we can ride,
take the wheel for a while
tail lights
white lines
c'mon, take a ride with me
no cash, can't splash
don't care, I swear,
no bank, full tank,
blowing smoke in the air
Baby, come on, take a seat right next to me

I wanna drive my car
I wanna drive my car
I wanna drive my car
I wanna drive my car
