

Keep on Runnin'

Sasha

You make me believe in magic
I never felt this way before
My heart is wide open, baby
Just come back, don't hurt me no more

Don't you worry, I know the answer
Let me be the one to hold you, darling
Always want to be around you
Don't you know my love is true

I keep on running to you, baby
I Keep on running on the way to your heart
Let me show you that I need you
I know nothing's gonna tear us apart

I Keep on running to you, baby
'Cause together we can make it start
Let me show you that I need you
I know nothing's gonna tear us apart

Keep on running, woah, I keep on running
I keep on running, woah, I keep on running

You've been away for so long
I was a fool for letting you go
You showed me what love was made for
I never knew, I needed you so

I will always be on your side
I like everything you do
Baby, say you love me, say you want me
I can never live without you

I keep on running to you, baby
I Keep on running on the way to your heart
Let me show you that I need you
I know nothing's gonna tear us apart

I keep on running to you, baby
'Cause together we can make it start
Let me show you that I need you
I know nothing's gonna tear us apart

I keep on running, woo, keep on running
I keep on running, woo, I keep on running
(Lalala...)
I keep on running, ooh, woo

I keep on running to you, baby
I Keep on running on the way to your heart
Let me show you that I need you
I know nothing's gonna tear us apart

I Keep on running to you, baby
'Cause together we can make it start
Let me show you that I need you
I know nothing's gonna tear us apart

I keep on running, woo, I keep on running
I keep on running, woo, I keep on running
