

Let Me Have You Girl

Sasha

You say you've got no reason why
to get up and say goodbye
but listen hard I let you know
just one night and you won't go

I don't wanna hear you
I heard it all before
just give me one good reason to not walk out the door

Let me have you girl
I will make you feel alright
Let me have you girl - it's alright - it's alright -
even if it takes all night

Let us get down on the floor
satisfaction I adore
your body takes my breath away
I promise you I'll make you stay

I don't wanna hear you
I heard it all before
just give me one good reason to not walk out the door
