

# This Is My Time

Sasha

If you're feelin' kind of down  
And nothing really seems to work out right  
You're troubles might be awfull  
But don't you let you're head hang down tonight

Just remember what it feels like  
To be standin at the top  
come on and shout it out

This is my time  
This is my life  
and I'll live it the way that I want it  
O This is my time  
Made up my mind  
and it feels like I'm gonna make it

Don't think about the past  
Just let your future dreams inspire you  
come and get your act together  
just believe in what you can really do

Just remember what it feels like  
To be standin at the top  
come on and shout it out

This is my time  
This is my life  
and I'll live it the way that I want it  
This is my time  
Made up my mind  
and it feels like I'm gonna make it

Never give it up
