

# Turn It Into Something Special

Sasha

Intro

Strophe

There's a voice inside us all, calling out so we don't fall.  
Nothing's lost that can't be found ain't a thing you can't get round.

Refrain

Turn it into something good, there's a chance you really could,  
turn it into something special.  
When you see it's time to choose, gonna find you'll never lose,  
turn it into something special.

Strophe

When your calm is broke in two, and you don't know what to do,  
hold your fire and look about, take the flame, don't put it out.

Refrain

Turn it into something good, there's a chance you really could,  
turn it into something special.  
When you see it's time to choose, gonna find you'll never lose,  
turn it into something special.  
Just believe in something new, we all have our part to do,  
turn it into something special.  
And you'll still be standing strong, hold your ground and carry on,  
turn it into something special.

Bridge:

When you know right from the start, gonna play it from the heart,  
take a chance and make things better.  
Leave your fears and doubts behind, don't give in, just keep on trying,  
turn it into something special.  
Mmh, mmh, ooh.

Refrain

Turn it into something good, there's a chance you really could,  
turn it into something special.  
When you see it's time to choose, gonna find you'll never lose,  
turn it into something special.  
Just believe in something new, we all have our part to do,  
turn it into something special.  
And you'll still be standing strong, hold your ground and carry on,  
turn it into something, just believe in something.

Na-na-na na-na-na, just believe in something, yeah yeah.  
Na-na-na na-na-na, you gotta carry on,  
you gotta carry on, carry on.  
Na-na-na na-na-na, oh-oh-oh,  
you gotta believe in something, na-na-na na-na-na, oh...
