

Wide Awake

Sasha

Breathing in
Breathing out
No more dues to play
Seems sometimes
Peace of mind
Is just some words away

If you still know
Where you will go
You can count on
Me all the way
Like a shadow
I'll be with you
Right beside you
And wide awake

Fading doubts
Soothing sounds
Wipe the noise aside
Warm and well
Leave your shell
There's no need to hide

If you still know
Where you will go
You can count on
Me all the way
Like a shadow
I'll be with you
Right beside you
And wide awake

If you still know
Where you will go
You can count on
Me all the way

If you still know
Where you will go
You can count on
Me all the way
Like a shadow
I'll be with you
Right beside you
And wide awake

If you still know
Where you will go
You can count on
Me all the way
Like a shadow
I'll be with you
Right beside you
And wide awake

Right beside you
And wide awake
