

Time Flies

Sass Jordan

I've had the blues and I had the breaks
I had a million dollars just a little too late
But I stood up, for what I believed in
I ain't never gettin' down on my bended knee
To kiss the ass of the powers that be
And I ain't givin' up on what I believe in

So nobody can dig that thorn in my side
Oh no, I ain't worried about no perfect disguise

Time flies and I'm on the run
Time flies, I'm a loaded gun

And even if I'm fightin' at the starting gate
Can't hold me back, I'm gonna win the race
There'll be no backin' down, from what I believe in
I've got the courage and I got the mouth
I ain't gonna spend my life without doubt
No givin' up, on what I believe in

Nobody can dig that thorn in my side
Oh no, I ain't worried about no perfect disguise

Time flies and I'm on the run
Time flies, I'm a loaded gun

Time flies and I'm on the run now
Time flies

Nobody can dig that thorn in my side
Oh no I ain't worried about no perfect disguise
Oh no, I've opened my mind and I've opened my eyes

Time flies and I'm on the run
Time flies, I'm a loaded gun now, now

Time flies and I'm on, I'm on the run now
Time flies, I'm a loaded gun now, now

Miss Judea, your so rude
I believe you've got the wrong pair of shoes now honey
Pick it up all
Oh yeah
Time flies
