

Stranglehold

Satanic Surfers

To be nobody but yourself in a world which does its best
Night and day to make everybody else,
means to fight the hardest battle
any human being can fight...

Resisting with every breath to conform
Refusing to play along
Breaking free from this
stranglehold
...and never stop fighting

To allow ourselves to feel real feeling
not media created, manipulated, stimulated feelings is a
political act in itself

Cutting off the puppet string
This umbilical cord that feeds us shit
and never stop, never stop, never stop, never
stop fighting!
