That Song

Satanic Surfers

I could write a thousand songs about my anger but it wouldn't c hange a thing in this world I know that for a fact but it makes me feel a whole lot better That's why I do this in the first place

I could write a thousand songs about my anger but it wouldn't c hange a thing in this world I know that for a fact but it makes me feel a whole lot better, that's why I do this in the first place

It's not my purpose to speak for anyone else, hold no answers Nor solutions, that song can only bring consolation for a while but it cannot act on your behalf so if you are aware and you k now where the problem hides, don't sit around blaming it on soc iety, that song might be a tool of revolution but it sure ain't meant as a commodity so

Sing along to the slogan filled refrain but don't let it numb y our brain, change doesn't come in any song

That song won't save us [x2]
