

## Wishing You Were Here

Satanic Surfers

Saw a recent picture of you, it brought tears to my eyes when I realized that it's been so long, too long since I saw you last  
And I felt the distance cut like a blade through my wrist, you looked different somehow  
Older perhaps

Different somehow

I used to think we'd never be too far away from each other but it feels like we're growing apart  
And the absence of you is leaving  
A hollow space in my heart

[x2] Guess you're happy where you are but I can't help wishing you were here  
(Guess you're happy) [x2]
