

## Strength And Honour

Satanic Warmaster

Reign of tyranny, of magick and strength  
Enthroned Aryan spirit the resurrection of our reich  
Valour of pagan Europe  
War and warrior's blood  
We know that our destiny lies in the forgotten stars...

Nordic Blood.  
The howling wolves in the night  
The forests caress the spirit long forgotten  
The time of retribution is at hand, with iron and hate  
You are the iron youth that will set our minds free.
