

## Be You Angel, Be You Beast

Satariel

I've crawled down graves so deep  
Climbed the ladder of light  
I've kissed the cross  
Then broken it in halves

God speak unto me  
Be you angel, be you beast  
But come unto me  
Clear the path, rid all doubts

But read my soul please  
I don't know who you are  
Am I but another fool  
Or am I speaking to a god now

God speak unto me  
Be you angel, be you beast  
But come unto me  
Clear the path, rid all doubts

This is my sacrament  
My ever going strife  
This is what I cry for  
What's my purpose  
Am I a gatekeeper  
For black holes and chaos  
Or the herder of souls  
Like Buddha

God speak unto me  
Be you angel, be you beast  
But come unto me  
Rid all my doubts
