

## Drown My Sorrow

Saturnus

I fall back into pain  
with your empty kiss  
beneath this rain  
You're still the one I miss

Drown my sorrow  
in the coulors of you aura  
embalm me with your innocence

and save my soul  
the fire burns  
but why am I still so cold

I fall back into pain  
with your empty kiss  
beneath this rain  
I couldn't care less
