

# Haunted Lovers

Satyrian

Lost souls caught in twilight  
Where our darkness never ends  
Cursed to roam through an ever-lasting night  
And so I leave my life in your caress

Life and death  
Two and one  
Hate and love  
Moon and sun

On an endless quest across  
All my love that is my loss  
And the secrets of the rising sun  
On an endless quest across  
all my love that is my loss  
Haunted lovers have become the ones

I know you well  
We're spirits that can't dwell  
There's no shelter but the bitter-sweet

Life and death  
Two and one  
Hate and love  
Moon and sun

On an endless quest across  
All my love that is my loss  
And the secrets of the rising sun  
On an endless quest across  
All my love that is my loss  
Haunted lovers have become the ones

Sometimes I blindly fall  
And then you'll hear me call  
Down my frenzy and my fire  
Can you feel all this desire?

Life and death  
Two and one  
Hate and love  
Moon and sun

On an endless quest across  
All my love that is my loss  
And the secrets of the rising sun  
On an endless quest across  
All my love that is my loss  
Haunted lovers have become the ones
