

Delirium

Satyricon

A bitter blow
A darkened maze
Can take you down
A fearless man
A shattered spirit
Will immerse in misery

Come see it, come feel it
It is here
Come see it, come feel it
It's alive
Delirium- out of bounds
Delirium- dying inside
Delirium- left to wither
Delirium- Infernal Majesty
Delirium- out of bounds
Delirium- dying inside
Delirium- left to wither
Delirium- Infernal Majesty

Count me in
(Let's) ride the storm
(And) fend them off
Set me free

A source of light
A tower tall
Can lead the way
A scent of blood
A lust for life
Will take you home

Come see it, come feel it
It is here
Come see it, come feel it
It's alive
Delirium- out of bounds
Delirium- dying inside
Delirium- left to wither
Delirium- Infernal Majesty

A broken mind
A fiery soul
Will stand the pain
A tightened fist
A will divine
Can break the chain

Come see it, come feel it
It is here
Come see it, come feel it
It's alive
Delirium- out of bounds
Delirium- dying inside
Delirium- left to wither
Delirium- Infernal Majesty

Count me in
(Let's) ride the storm
(And) fend them off
Set me free
