Delirium

A bitter blow A darkened maze Can take you down A fearless man A shattered spirit Will immerse in misery Come see it, come feel it It is here Come see it, come feel it It's alive Delirium- out of bounds Delirium- dying inside Delirium- left to wither Delirium- Infernal Majesty Delirium- out of bounds Delirium- dying inside Delirium- left to wither Delirium- Infernal Majesty Count me in (Let's) ride the storm (And) fend them off Set me free A source of light A tower tall Can lead the way A scent of blood A lust for life Will take you home Come see it, come feel it It is here Come see it, come feel it It's alive Delirium- out of bounds Delirium- dying inside Delirium- left to wither Delirium- Infernal Majesty A broken mind A fiery soul Will stand the pain A tightened fist A will divine Can break the chain Come see it, come feel it It is here Come see it, come feel it It's alive Delirium- out of bounds Delirium- dying inside Delirium- left to wither Delirium- Infernal Majesty
