## **To the Mountains**

I lost touch with me I was and still am fire

Ignite! To the mountains

Live, breathe, sense, move I know, it pains me too

Ignite! To the mountains

Lies, deceit, fright, escape Caught, burdened, gone, trapped Get up, on your feet Give me your very self It's time to rise

Persist, progress Chin up, and ignite

To the mountains

Live, breathe, sense, move

Cast the light, deadly trail I see it now Sky is lit, opens up I want my share Lift me up, carry me I need you now Heal the wounds, bloody deep I have to stop

Ignite! To the mountains (x 7)
