

## From the ashes

Savage Circus

Deadly eye  
Unholy firelight  
Grimly staring down  
Gleaming in the night  
Hellforged Hammer of Doom  
Star of Death  
Eating worlds in scorching breath

Riding on a tail of fire  
Augured by the ancient ones  
Glowing on the firmament  
Harbinger of Armageddon

Armageddon  
Armageddon  
Armageddon when the Hammer of Doom  
Armageddon was falling down

In the ashes of yesterday yesterday  
I will arise  
Ashes of yesterday yesterday  
From the aftermath of demise  
And by the morning  
A new age is dawning  
Once again may the circle begin  
In the ashes of yesterday

All lost  
Nothing remained  
When the burning giant  
Hit the ground  
Darkness fell  
Coldness and ice  
When the star came stumbling down  
From the skies

Silently in deep despair  
I'm mourning for the world  
Like a candle in the wind  
The flame of life will shine on and on

In the ashes of yesterday yesterday
