

# Tomorrowland

## Savage Circus

Grey is the sky and cold is the wind  
Shadows dancing inside of my room  
Make them go away  
Leave me alone

Endless days and lonely nights  
In solitude, removed from the world  
That surrounded me  
Feel like I'm fading away

Fading away

Sometimes I wish I could dive just in  
One of those fairy tales  
A world full of secrets and magic  
So many wonders to unveil

Send me a child

On the tale of a falling star  
On the quest for Tomorrowland  
I close my eyes and I make a wish  
Bring me home to Tomorrowland

Tired and weakened I barely exist  
Seeing the world through a blurry mist  
Let me go  
I want to be in that distant land

Where I'd be riding on a white horse  
Saving my princess from harm  
I'll be a hero courageous and bold  
Holding her in my arms

I'd be the golden knight  
At gallop I'd come along  
I would be racing the winds  
I would be strong

Once upon a time

Now darkness is falling down  
By the break of dawn I'll be gone

My touch is now cold  
But I'm not afraid  
I'll be on the way  
The way to escape  
I'm hearing the hoof beats  
My armour will shine

Once upon a time
