

# He Who Laughs Last

Savage Messiah

Bound to turmoil, driven by the need  
Antipathy and the strength to see

Rising through scores of the dead  
Determined to reap what is said

Further now to what I've never known  
No lies in silence the storm has grown

Fight!  
Into eternity fall  
Fight!  
Obscured delusion contorts

Forsaking final agony  
To remove total disparity

Into new seclusion  
Born out of resurrection  
To smote my only enemy  
And so he who laughs last  
Becomes the vindicated  
Eradicates the fallacy

Sanctified desecrated dreams  
Foiled temptations mask the damaged scene

Destiny rides through the smoke  
To sharpen the axis of hope

Inspid homage to duplicity  
Vacuous and mind destroying leach

Fight!  
Into eternity fall  
Fight!  
Obscured delusion contorts

Forsaking final agony  
To remove total disparity

Into new seclusion  
Born out of resurrection  
To smote my only enemy  
And so he who laughs last  
Becomes the vindicated  
Eradicates the fallacy
