

## I Am Here

Savages

I am here  
And there  
At the same time  
The world is with me  
And you're coming for the ride  
I am here  
I won't hide  
I am shouldering you  
This is easy  
This is not hard  
Are you coming for the ride  
Are you coming

I  
Am  
Here  
I am here

I am here  
No more fear  
No more dark shadows  
Let it come  
Let me talk to you  
See the face of your future  
I don't wanna hide  
Hear it calling you

I  
Am  
Here  
I am here

I am here  
I am here  
I am here  
I am here  
I am here
