

She Will

Savages

She will enter the room
she will enter the bed
she will talk like a friend
she will kiss like a man

she will forget her name
she will come back again
get hooked on loving hard
forcing the slut out

you got to get used to it
give your heart a little kick
coz she will, she will, she will

she will open her heart
she will open her lips
she will choose to ignite
and never to extinguish

she will forget her pain
she will come back again
get hooked on loving hard
forcing the slut out

you got to get used to it
give your heart a little kick
coz she will, she will, she will...
