

# Closure

Savannah Outen

Yesterday I spotted you  
Hanging out with someone new  
Come on dude, I can't believe who  
Did it hurt? Oh yes it hurt  
But not as much as I thought it would  
Guess it's time for me to move on

I'm getting closer (closer, close)  
Closer to closure (closer to closure)  
Everyday's closer (closer, close)  
Closer to closure (closer to closure)

I finally took your pictures down  
And all that other stuff I found  
Hidden somewhere in my closet  
I used to wear your shirt to bed  
But now it's in the trash instead  
I don't want to be reminded. No, no.

I'm getting closer (closer, close)  
Closer to closure (closer to closure)  
Everyday's closer (closer, close)  
Closer to closure (closer to closure)

I saw you today taking my breath away  
But then you opened your mouth without thinking  
And then I recalled why I ended it all  
And it makes me feel good about leaving (leaving)

Mmm...  
Everyday everyday everyday  
Everyday everyday everyday everyday  
I'm getting closer

I'm getting closer (closer, close)  
Closer to closure (closer to closure)  
Everyday's closer (closer, close)  
Closer to closure (closer to closure)
