

So What

Savannah Outen

You, You don't like it when I show off
And You, Always tell me that I have to stop
You act like you don't know who I am
Well I don't get the props out on demand

Cuz You are all the drama, you are all the show
Tellin' me the thing about where I gotta go
You nag at everything like I'm just too young to know

Chorus

So what? I don't care of what you say anymore
You thing you're so cool but you're such a bore
Don't wanna hear your noise
So leave me alone
So what? I don't care if you like it this way
It's crazy how I waste my life away
So it's time I moved on
Cuz everything Is wrong with you
So So So what?

You think that everything is just pretend
And you don't like it when I'm with my friends
I can't turn your voice off in my head
And I know every word that you've ever said

Cuz You are all the drama you are all the show
Tellin' me the thing about where I gotta go
You nag at everything like I'm just too young to know

Chorus

So what? I don't care of what you say anymore
You thing you're so cool but you're such a bore
Don't wanna hear your noise
So leave me alone
So what? I don't care if you like it this way
It's crazy how I waste my life away
So it's time I moved on
Cuz everything Is wrong with you
So So So what?

Chorus X2
