

# I Believe

Savatage

Beyond the skies, rising so high  
Set a course for the unknown

But I believe there's life out there  
Somehow we'll find it

The countdown begins  
Our ship soon will launch  
On it's perilous flight to the stars  
A civilized race, on some distant world  
We'll find you wherever they are

I believe we'll find a new world  
Can't you see we cannot return?

Systems are gone as we leave behind  
A planet that's doomed to end  
Nuclear wars, the polluted seas  
Doomsday begins it's descent

Where do we go?  
What'll we find?  
Is there life?  
Other than mine?

I believe

For two thousand years we sought and we searched  
The galaxy's black holes in space  
Then on the day of 30-13 we came upon a race  
I believe we can survive on this sphere  
Plotting a course to enter the stratosphere  
We're finally here, can we survive?  
A cryosphere  
I hope there's life

I believe

We land our ship on a green barren plain  
Once outside from a box the voice came:

(shifted at least one octave down)  
Welcome to Earth  
May we ask who you are?  
Our race is called Man  
The planet is done, done, done, done, done, done, done!

Planet is doomed  
Hands off the moon  
Forget the tune

Hands off the moon  
Strike at the two  
Forget the blue
