

# This is Where You Should Be

Savatage

[verse 1]

Time, it slips away  
Life it carries on  
I remember telling you a dream

About a girl that I had seen  
The kind that steals your heart away  
Then she fades into the night

All I remember are her eyes  
I wish she could be found

[chorus 1]

My heart can feel her  
My arms can't reach her  
I want you back, oh, baby I need to see you!  
here with me yeah

This is where you should be, oh

[verse 2]

She's a fantasy  
A vision i can't resist

I search the darkness of my mind  
To try and find the reason why  
She's only in my dreams

Well she better do it  
Will i ever see her again?  
Does she know I want her know?

[chorus 1]

My heart can feel her  
My arms can't reach her  
I want you back, oh, baby I need to see you!  
here with me yeah

This is where you should be  
Oh  
This is where you should be  
Oh Oh

My heart can feel her  
My arms can't reach her  
I want you back, oh, baby i need to see you  
here with me yeah

This is where you should be  
Oh  
This is where you should be  
oh  
This is where you should be  
Oh  
This is where you should be  
Oh
