

## Anywhere with You

Saves the Day

I know i can't come near you  
Every time i do  
I get shaken inside and the sun in my eyes  
I'll stay away

I'd rather be here  
than anywhere with you  
Whoo

I'd be dancing with your ghost  
Toasting note to note  
So here's to the passing  
of all that could be  
between you and me

I'd rather be here  
than anywhere with you  
Whoo

I know i can not see you  
even if i wanted to  
'cause your light is the light of ten sunsets  
Circled by eyes burned blue and opened wide

I'd rather be here  
than anywhere with you  
Whoo

I'd rather be here  
than anywhere with you  
Whoo
