Anywhere with You

Saves the Day

I know i can't come near you

Every time i do

I get shaken inside and the sun in my eyes
I'll stay away

I'd rather be here than anywhere with you Whoo

I'd be dancing with your ghost Toasting note to note So here's to the passing of all that could be between you and me

I'd rather be here than anywhere with you Whoo

I know i can not see you even if i wanted to 'cause your light is the light of ten sunsets Circled by eyes burned blue and opened wide

I'd rather be here than anywhere with you Whoo

I'd rather be here than anywhere with you Whoo
