

## Beyond All of Time

Saves the Day

I love you beyond all of time  
Together forever tonight

The night we met, remember when we sat and talked  
Against the wall outside a bar where no one goes?  
It took about a half a second for the fall  
No time at all

To know I love you beyond all of time  
Together forever tonight  
I'll always be right by your side tonight  
I love you beyond all of time

The stars are out, it's summer now, we're hanging out  
Behind the house, no one around, we sit and talk  
About the week we went away all by ourselves  
Time standing still

Always, I love you beyond all of time  
Together forever tonight  
I'll always be right by your side tonight  
I love you beyond all of time

Although our yesterdays are gone, it's just as well  
I'll look to now

Right now I love you beyond all of time  
Together forever tonight  
I'll always be right by your side tonight  
I love you beyond all of time  
I love you beyond all of time
