

Bye Bye Baby

Saves the Day

Bye bye, babydoll
You know I'm never coming home
For any reason I should call
Don't pick up the phone

Just know
I'll love you from afar, and that is all.
You know as well as I we're both alone.

So bye bye, baby
Our love can't save me
So bye bye, baby
Bye bye, babydoll
There's letters littering the lawn
The police in the parking lot
Every time I wake, you go

I'll love you from afar, and that is all.
You know as well as I, we're both alone.

So bye bye, baby
Our love can't save me
So bye bye, baby

Don't pick up the phone
Just know I'll love you from afar and that is all
You know as well as I we're both alone
My heart, my love it died so long ago

So bye bye, baby
Our love can't save me
So bye bye, baby
Bye bye, baby
Our love can't save me
So bye bye, baby
Bye bye, baby
Our love can't save me
So bye bye, baby
Bye bye, baby
Our love can't save me
So bye bye, baby
Bye bye, baby
Bye bye, bye bye!
