

Ring Pop

Saves the Day

Before we live forever say
Together we can be okay
If it's the last thing that we do
I wanna sing along with you

Don't know where to begin,
just couple of kids,
when we met by a bar,
on the side of the road

It was only a dream,
saw you staring at me,
what I said to myself,
as I woke up to see,

it was already late,
10:10 in the neon green
and your number was
on my right hand in red ink

Before we live forever say
Together we can be okay
If its the last thing that we do
I wanna sing along with you

7 years will go by
in a blink of an eye
suddenly here we are
were we the odds

born on opposite coasts
for the two of us both
knowing in 20 years
we would not be alone

might of made us a pair
of zen-like two-year olds
with a couple of ring pops
no need to propose

Before we live forever say
Together we can be okay
If its the last thing that we do
I wanna sing along with you

and in 70 years when
somehow there's a way
to be frozen in time
forever we will stay

Before we live forever say
Together we can be okay
If its the last thing that we do
I wanna sing along with you

If its the last thing that we do
I wanna sing along with you

And hear you singing too

This is our song

I'll always song for you
