

Angel Without Wings

Saving Abel

Sucked into another black hole
Dragged me further down the road
I can't keep from feeling
Time drags me down the line
Gets me closer every time
'Cause it's you I'm missing

You're my angel without wings
Don't need a more higher love
You're flying above me
I'll keep looking up
You are my angel, my angel
I'll keep looking up

Lying here in heaven
We're face to face to skin
I can't keep from feeling
And there's no place I'd rather be
And you jumped away with me
All in this moment

You're my angel without wings
Don't need a more higher love
You're flying above me
I'll keep looking up
You are my angel, my angel
I'll keep looking up, I'll keep looking up

Falling back down
From the sun to the ground
Well, I can't turn back now
I'll keep looking up, yeah

You're my angel without wings
Don't need a more higher love
You're flying above me
I'll keep looking up
You are my angel

You are my angel
You are my angel, my angel
I'll keep looking up
