

Blood Stained Revolution

Saving Abel

You can blame it on the illuminati
You can even blame it on the devil too.
Don't try to act like you can't be held responsible you knew the price now payment is due.
You knew the price now payment is due.

You can blame it on miscommunication
You can even blame the circumstances
Don't try to act like after all the knives were thrown that you don't have some blood on your hands.
I see the blood all over your hands

If you kill off all my demons then all my guardian angels will die
A stone cold execution, a bullet right between the eye
It's a blood stained revolution, a blood stained revolution, a blood stained revolution
There's a little bit of heaven in the devil's eye

You can blame it on our lack of education
You can even blame society
There's just one thing that I think you're overlooking
You like to cut but don't like to bleed, you like to cut but don't like to bleed

If you kill off all my demons then all my guardian angels will die
A stone cold execution, a bullet right between the eye
It's a blood stained revolution, a blood stained revolution, a blood stained revolution
There's a little bit of heaven in the devil's eye

(If suddenly there's a threat to this world from some other species from some other planet
We will find out once and for all that we really are all human beings Here on this earth together)
