

Contagious

Saving Abel

You're contagious, get under my skin
Tattooed my heart black again
Contagious, no amount of sympathy
Give me something to kill the pain

There never was a cure for this
Try to stand and swallow pills
Something to numb the brain
Something to kill the pain

This drug is causing me
Such a beautiful misery

You're contagious, get under my skin
Tattooed my heart black again
Contagious, no amount of sympathy
Give me something to kill the pain

So gracious, with a disease you gave
Tie me up and blind your slave
Then I'm burning love and lust
You're contagious

First you bite, then I bleed
When you sink your teeth in me
Feed from me when you're hungry
Feed from me, I'm surrendering

This drug is causing me
Such a beautiful misery

You're contagious, get under my skin
Tattooed my heart black again
Contagious, no amount of sympathy
Give me something to kill the pain

So gracious, with a disease you gave
Tie me up and blind your slave
Then I'm burning love and lust
Oh, you're contagious

The crave, the bite, the sting
The crave, the bite, the sting
You bite and I bleed

You're contagious, get under my skin
Tattooed my heart black again
Contagious, no amount of sympathy
Give me something to kill the pain

So gracious, with a disease you gave
Tie me up and blind your slave
Then I'm burning love and lust
Oh, you're contagious

The crave, the bite, the sting
You're contagious

The crave, the bite, the sting
Yeah, yeah, you're contagious
