

# Down In Flames

Saving Abel

We're going down in flames  
Rising through the ashes  
Burning down again

(Down in flames)

Let me finish this cigarette  
And try to think  
And not regret  
Give me one second to slow things down  
Or speed this up and try to turn it around

Look at us now  
We're going through hell  
Let me know when you get over yourself  
I can't talk to you anymore

We're never gonna get there  
It's me that will burn it down  
We're never gonna make it, honey  
If it's over now  
We're going down in flames

So don't try to run from it  
Or regret anything  
Just get it we can make it again  
If you still believe

Look at us now  
We're going through hell  
Let me know when you get over yourself  
I can't talk to you anymore

We're never gonna get there  
It's me that will burn it down  
We're never gonna make it, honey  
If it's over now

We're going down in flames  
Rising through the ashes  
Burning down again  
Down in flames  
Burning down

I can't stay away  
I feel something pulling me in  
I'm ashes in the flames  
I keep thinking that you can save me  
But you keep burning me down

Going down  
We're never gonna get there  
If we don't burn it down  
We're never gonna make it honey  
If it's over now

We're going down in flames

Rising through the ashes  
Burning down again  
Down in flames  
Burning down

We're never gonna get there  
Burning down  
We're going down in flames
