

# Let It All Out

## Saving Abel

Hey now is everybody with me?  
Stand up, let it all out  
Hey now everybody follow me  
Stand up, scream and shout

Hey now can everybody hear me?  
One voice, let's get loud  
Hey now is everybody with me?  
Stand up, let it all out

I'm rolling just like a freight train  
I'm rolling, I'm rolling  
I'm flying just like an aeroplane  
High, high, high, high  
I'm going full speed in the fast lane  
I'm running, I'm running  
I'm flying just like an aeroplane  
High, high, high, high

I feel my heart beating heavy  
I see it in your eyes  
I hear voices all around me  
It's time we come alive

Hey now can everybody hear me?  
One voice, let's get loud  
Hey now everybody follow me  
Stand up, let it all out

I'm rolling just like a freight train  
I'm rolling, I'm rolling  
I'm flying just like an aeroplane  
High, high, high, high  
I'm going full speed in the fast lane  
I'm running, I'm running  
I'm flying just like an aeroplane  
High, high, high, high

I'm never coming down  
I'm never coming down  
I'm never coming down  
I'm never coming down

I'm rolling just like a freight train  
I'm rolling, I'm rolling  
I'm flying just like an aeroplane  
High, high, high, high  
I'm going full speed in the fast lane  
I'm running, I'm running  
I'm flying just like an aeroplane  
High, high, high, high

I'm never coming down  
(high, high, high, high)  
I'm rolling just like a freight train
