

# Love Like Suicide

Saving Abel

She's got love like suicide  
But I love the way it gets me high  
Love like suicide, love like suicide

Get so messed up, my head is all fucked up  
Good luck, bad blood I can never get enough  
High class Devon-aire stopping bullets with her stare  
My curse, my prayer, pulling deep and fighting there

You've got me feeling so breathless  
You've got me feeling so restless  
Now we know, we gotta go  
It's time to enfold

Cause she's got love like suicide  
But I love the way it gets me high  
She's the devil in disguise  
And her love's like suicide  
Love like suicide, love like suicide

Up against the rope, now's the time my last hope  
One chance get drunk she's the fire I'm the smoke  
Bright lights bleeding, this music is my demon  
Bottled up, let it out, show em what it's all about

You've got me feeling so breathless  
You've got me feeling so restless  
Now we know, we gotta go  
It's time to enfold

Cause she's got love like suicide  
But I love the way it gets me high  
She's the devil in disguise  
And her love's like suicide  
Love like suicide, love like suicide

You've got me feeling so breathless  
You've got me feeling so restless  
Now we know, we gotta go  
It's time to enfold

Cause she's got love like suicide  
But I love the way it gets me high  
She's the devil in disguise  
And her love's like suicide  
Love like suicide, love like suicide  
[x2]

(You're my devil, you're my devil girl  
Yeah, yeah yeah  
Your love is suicide, your love is suicide)

Your love is suicide, your love is suicide)  
Love like suicide, love like suicide
